Zoo Enclosure Written Description Pre-Write

Animal 1 _____

Meeting to animals needs

Animal getting its exercise

The animal's enrichment matching its natural behaviors

Animal 2 _____

Meeting to animals needs

Animal getting its exercise

The animal's enrichment matching its natural behaviors

Animal 3 _____

Meeting to animals needs

Animal getting its exercise

The animal's enrichment matching its natural behaviors

Final Draft: Write a paragraph for each animal and type it up. Be sure to have a introduction sentence each paragraph.

Example Paragraph for 1 animal:

Keeping the chimpanzees happy and healthy in their new zoo enclosure is going to be very challenging for zoo and the zookeepers. The zoo enclosure is going to meet the needs of the chimpanzees by having water available 24 hours a day in the form of a pond in the exhibit and a bowl of water in the holding area. The chimpanzees will get fed 2 times a day. They will get fed first in the morning before they are let out and again in the evening when they come into the holding area. They will also have termites available throughout the day as part of their enrichment. We will provide sticks in their exhibit of various sizes and shapes that they can use to make fishing sticks with. The Chimpanzees will have tall trees and rope swings to play on throughout the day and this is will be their exercise as well as their enrichment. The area will be large enough for all the chimps to run, play, chase and groom in. There will also be large branches available for bed making and playing. This enclosure will have both an indoor space for days when it is raining; chimpanzees do not like the rain. In the winter they will be in the indoor area only.
